

# **Confess & Be Healed** by Christy Hoagland

## Lyrics

### **Verse 1**

Deep inside my sin remains, things not said, my secrets laid  
And I, I just can't  
What if they saw who I am, the broken, prideful, wretched man  
And I, oh I just can't

### **Pre-Chorus**

I hear you, confess you say, what if I remain this way  
I don't want to stay the same, I don't  
I just can't

### **Chorus**

Confess and be healed, let the darkness disappear  
The Light is here, let fear give way, be healed  
Confess and be healed, let the darkness disappear  
The Light has come, the victory's won, be healed

### **Verse 2**

You don't know the things I've done, the weight, the hurt, how far I've run  
And this, it's tucked away  
Depression, pain, anxiety, all the things it steals from me  
And I, I want free!

### **Bridge**

Speak it out, lay it down  
Declare what's in the dark  
Name your sin, say it now  
Let Him heal your broken heart

### **Tag**

Mercy, grace, His righteousness, confession leads to all of these  
And now, now I'm free
